

PROJECT TITLE

North Tapti Gas Field Development Project.

DATE

March/April 2011.

BACKGROUND

KTL Offshore provided the lifting equipment for several phases of this project - located in the Bombay Offshore Basin. The project overall included the development of four additional drilling platforms, a new natural gas processing platform and the construction of a 36-inch diameter natural gas pipeline.

A single wellhead platform was to be installed to drill eight new wells to raise gas production from 250 million standard cubic feet per day to 450 cubic feet per day.
