

KIPPER TUNA TURRUM PROJECT (AUSTRALIA)

KimPlasma Slings with KimGuard, KimFlex Wire Rope Slings, Crosby Hooks/Links and Shackles

PROJECT TITLE

Kipper Tuna Turrum Project.

DATE

May 2011.

BACKGROUND

Located off the Victorian coast in the Bass Strait, ExxonMobil Australia's Kipper Tuna Turrum Project is currently one of the largest domestic gas developments on the Eastern seaboard.

The \$4 billion project will develop cleaner-burning natural gas supplies and holds enough energy to power a city of a million people for 35 years.

Offshore installation began in mid 2010. This operation will involve hundreds of people, several vessels and a precisely coordinated installation plan.

The Kipper facility construction is expected to be complete in 2012 whilst Turrum is expected to be completed in 2013.
